

CONFIDENT COLLABORATION & CREATIVITY

INTENT - Purpose of Study

After an unsettled academic year for everyone, our priority is to reshape and restore our rich and diverse provision for all. Pupils will be confident communicators and collaborators. They are supported by staff and each other to go outside of their comfort zone and be the best they can be.

Implementation

Just like any skill, confidence builds through practise. Our children are given opportunities to develop this through a curriculum that is proactive in providing the time for them to build self-awareness and self-belief. Within all aspects of the curriculum, opportunities are sought for the children to work collaboratively with others and flourish individually. Oracy and vocabulary are at the heart of all lessons so children have the language to express their thoughts and feelings. The learning atmosphere in classrooms encourages and supports children to be challenged and solve problems, normalising asking for help.

A diverse range of planned experiences give children the chance to talk to a range of people from different backgrounds. This is in addition to performances on a small and larger scale.

Adults seek opportunities for all children to shine during their time with us and achievements are celebrated during Celebration Assemblies.

Impact

West Berry children are nurtured to become equipped with the confidence and skills to succeed and be the best they can be as citizens of our society. They gain courage, resilience and are able to work with others, ask questions and share ideas.
